Adding flying to a shooter and make it a good video game it's a hard task, but **SPY BUGS** does it very well. The game is very funny and already good enough for such an early state (alpha)! Of course it needs more maps and more people, but I'm positive they will come and **SPY BUGS** will be an even better game. I'm loving the experience so much that I decided to make my review on video, instead of only writing this Steam analysis:

- <https://www.youtube.com/watch?v=JdA2hVbPhX0>. I cant write a real review about it, nowadays, since the game was really dead as i got it longer ago. I refund it since i was not able to play it, the last 2 servers which were running (i duno if even 1 server is now running...) were all the time empty.

I mean it, avoid buying it now, you will not be able to play it anymore.... PAKO 2 is crazy taxi criminal edition, and that is a very good thing! (Video Version of Review) <https://youtu.be/PMddawSe0f4> The core gameplay revolves around picking up crews from jobs they just pulled, and getting them to their drop-off location, all while avoiding the ever growing police threat that manifests itself in increasingly more dangerous ways. The game may sound simple, but it's all the extra trappings that push this one well ahead of it's competition. An entire lot of cars to buy with in game cash, tons of weapons to purchase that give this title it's twin stick elements, mods that can be installed, a perk system that can be customized and earned through each successful drop-off, stat boosting for each vehicle, multiple levels! The list goes on and on for ways that you can customize your own experience and style in this game. Even the graphic options shine here, with the ability to make the game look like a 70's VHS cop show, or if you prefer, clean up the visuals with a more "modern" look. Tree Men Games have written a love letters to the fans with this title, and I would be more than happy to stand up and start the slow clap that this game deserves.. Finished this within 42 minutes, probably wont be playing again. Most characters are simply horrible like the "hunter" whose arrows have a very tight hitbox etc. And the enemies are just moving around, not attacking (some of them have incredibly simple attacks) Bosses were ok. .A fun hour-long game (if your lucky!) Simple in concept, and a fun sideplot that will have you wanting to complete the game, no matter how increasingly difficult the levels get. This game is worth every penny.. Official cheat which gives you the upgrade directly. You can still get it during the regular gameplay, so don't buy it.

First Beat Hazard had a special place in my heart.

Already LOVE the new Features in the second one!. Beautiful HOG on exotic setting ^^

I wish it were longer. gt;Start game

>Controls are laughably bad

>Arrow key movement instead of WASD

>Open options to change keybinds

>No option to do that

>Quit game. It isn't Football manager but it is very similar... Wonderful game. For a single-man creation, it's great.

P.S.- the camera..if the camera could be pointed behind the car, the game will be even greater(for example, like in Retro Parking).. Combines Mount & Blade with Total War; kinda like the Red Orchestra 2 of strategy games.

A unique and underrated title from a studio that went under before bugs were fixed.

Buy it on sale you won't be dissapointed.
